PREFACE

Agriculture plays an important role in the state economy being the predominant occupation and its contribution to GDP. Agricultural alone accounts for 15 percent of the state GDP. Hence identification of major crops and their contribution in GDP is very important for taking suitable policy decisions. State will take up the cost of cultivation studies for identification of inputs and their cost in producing these crops. In this report district wise 10 minor crops have been identified. This report covers cultivated area, production and value during 2011-12.

This publication will serves as an important tool for planners, economists, statisticians, and research scholars in formulating, assessing, renewing and evaluating the main features of agriculture sector of Punjab economy.

Part I

A brief about Milestone, Target and Achievement

Part-I

A brief background about Milestone, Target and Achievement

To improve the Statistical System at State and District levels, Thirteenth Finance Commission (13th FC) has recommended a grant of Rs. 616 Crore for all states over its awarded period 2010-15. Under this, 13th FC has recommended Rs. 20.00 crore to the Punjab State @ Rs. 1.00 crore per district, which is meant primarily to improve statistical system in the districts. At least 75% of the grant is to be spent at the district level to strengthen statistical system for the activities not covered under the “India Statistical Strengthening Project (ISSP)” and 1/4th may be used at State Level.

Milestones Fixed under 13th Finance Commission

Under the 13th FC grant 5 major Milestones are fixed to be achieved during the grant period i.e. 2010-15. These 5 Milestones are as under:

- (i) Preparation and maintenance of Business Register at District Level.
- (ii) Preparation of Local Bodies Accounts by collecting data on receipts and payments of these bodies.
- (iii) Improvement of data in respect of Farm Activities.
- (iv) Pooling of Central and state sample data for generating district level parameters.
- (v) Providing network connectivity among districts and with State Headquarters.

Improvement of Data in respect of Farm Activities

The whole grant is to be released by Government of India to the State Government in 5 equal installments during the grant period i.e. during 2010-11 to 2014-15. All 5 Milestones are set to be achieved under 5 installments of grant. Various prescribed targets are to be achieved in each Milestone during grant period.

Methodology to Identification of 10 major crops, their production and prices

Report on cultivated area and production and the peak period arrival prices at primary market for these crops has been collected and compiled for the AY 2010-11 has been prepared and sent to Central Statistical Organization, Govt. of India .

Collection of data on area, production and value for Horticulture/Fruits crops has been collected and compiled for the Agriculture Year (AY) 2011-12 in this report.

Source of Data

The data on cultivated area and production under crops is collected by the Horticulture Department, Punjab every year. As far as the peak period arrival prices at primary market for these crops are concerned, this information has been collected from each District Market Committee of each District.

Reference Period

The data available with the Agriculture & Horticulture Department, Punjab on cultivated area and production of these crops was taken for the agriculture year 2011-12.

Composition of Report

In this report a brief about milestone, target and achievement is presented in Part-II. An account of Fruit/Minor crops, district wise and the state as whole, has been given in Part-II of it. District wise tables containing data on cultivated area, production and peak period arrival prices at primary market for these crops, are given in Part-III of the report.
